

GEMINI HIPPOTANK

**TANK IN POLYETHYLENE APPROVED
FOR FUEL TRANSPORT (IBC)
PURSUANT TO ADR REGULATIONS**

Light, transparent and compact.

Gemini Hippotank is a new tank in polyethylene to transport fuel. Their overall research, conception, design and development activities enabled Gemini to achieve a revolutionary product.

Gemini Hippotank is light, transparent and compact and is the first polyethylene tank complying with the ADR regulations which received the UN mark.

It is highly innovative in terms of lines and technical content, its capacity is 960 litres and it is equipped with a fuel supply unit.

Gemini Hippotank combine safe transport and the compliance with the regulations in force with its traditional strengths: cost effectiveness, compact size and light weight.

The pump housing was obtained in the tank frame, equipped with fuel supply unit including: 12-volt DC battery electric pump with 40 to 60 l/m capacity, automatic nozzle, 5 m. rubber hose, electronic counter for private use.

Side strips allow fork-lifting (full load), reinforced through tubular galvanised carbon steel.

MAIN MANUFACTURING FEATURES

- Manufactured in roll printed liner polyethylene, a material that ensures excellent resistance against shocks, temperature changes, chemical agents and the weather.
- Its transparency also allows a constant sight monitoring of the fuel level.
- It can be easily washed with normal detergents thanks to its perfectly smooth surfaces.
- Side strips allows fork-lifting (full load) and reinforced through tubular galvanised carbon steel.
- 220mm diameter top hatch with lock screw cover, gasket and relevant air vent.

Screw plug hatch with lock and holes for lifting from above (empty).

Transparent material: it allows the constant fuel level sight monitoring

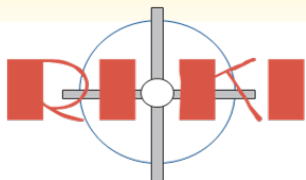

Pump housing cover with safety lock.

GEMINI HIPPO TANK

Technical Data

	Capacity litres	960
(A)	Width mm	1000
(E)	Length without door mm	1710
(B)	Length with door mm	1800
(C)	Height mm	880
(D)	Height at hatch level mm	965
	Empty weight Kg	95
	Empty weight with fuel supply unit Kg	113
